

# New welding gun for LKA 150

From **week 46** 1996 a new welding gun **PSF 150V** is introduced in LKA 150. The old gun **PSG 14V** will not be available any more. Machines with serial numbers higher than 644-646-0061 is equipped with the new welding gun. Spare parts for **PSG 14V** will be available as usual.

The new **PSF 150V** is based on our **PSF**-system and looks very much like **PSF 160**. This means that we can use the same spare and wear parts as in **PSF 160**. Some extra parts that are specific for **PSF 150V** is also introduced.

Below a simplified spare part list is presented:

	<b>Welding gun PSF 150V</b>	<b>456 930-880</b>
1	Spare part kit (same as before)	469 517-880
2	Spare part kit (same as before)	469 517-881
3	Swan neck complete 45°	366 324-880
4	Gas nozzle	366 854-880
5	Spatter protection	366 396-001
6	Adapter	469 249-001
7	Insulation	366 397-001
8	Protection hose L=63 mm	192 086-006
9	Locking nut	468 886-880
10	Handle complete	468 912-880
11	Trigger	365 840-880
12	Wire liner teflon	456 928-880
13	Wire liner steel spiral	456 929-880
14	Contact tip for wire Ø 0,6	468 500-001
15	Contact tip for wire Ø 0.8	468 500-003
